

***“We make
laundry profitable.”***

ABOUT US

We incorporated in Ohio in 1996 and have established our company as a leading provider of laundry equipment and related services. Our coverage area includes Ohio, Pennsylvania and West Virginia. Being committed to each customer, every day with ongoing support has been a core value since our inception.

We accomplish this by providing our customers with high quality equipment, parts and service technicians that are factory trained. We provide the complete solution for your laundry equipment needs. We install the equipment we sell, and always provide a warranty on the work and equipment. This allows you to have the convenience and peace of mind using one vendor.

We carry several brands including Continental Girbau, ADC, IPSO, Sports Laundry Systems and LG commercial equipment. Additionally, we carry laundry chemicals and vended laundry supplies. We serve vended and on-premise commercial laundries.

SERVICE & PARTS

Expert Service Technicians – We understand that an out-of-service machine equates to lost productivity and/or business – making repairs urgent. That’s why we provide service within 24 hours. Our fully stocked service vehicles have the parts to make repairs on the first visit. We also have in-house technical assistance – experts who can walk you through problems over the phone, and in some cases, save you the down-time. At Advantage Equipment, our job is to guarantee your satisfaction.

Stocked Parts Department – Our fully stocked parts department includes the most common parts for most major brands, available over-the-counter, by phone, fax or Internet order. Parts carried in-house are usually shipped same day. Other non-stock parts can be drop-shipped direct from the factory within only a few days.

Regional Pricing

We offer special pricing to companies that have multiple locations in our service area. Ask your sales representative if these can apply to you.

VENDED LAUNDRIES

We are experienced developers of successful self-service laundries, equipped with energy-efficient equipment and specialized services designed to attract a wide array of customers.

Experience & Dedication – We partner with our customers in every endeavor of self-service laundry development – assisting them with site selection, demographic studies, equipment selection and installation, ancillary item selection, projections of income and expenses, financing options, laundry design and layout, and ongoing technical services. We work hard to help our clients develop highly profitable, successful businesses. We can assist you in new store design or existing store redesign.

High-Performance Laundry Equipment – Through careful differentiation of your new coin- or card-operated laundry, you can attract non-traditional customers as well as traditional self-service customers—adding to profitability. Simultaneously, through careful selection of equipment, laundries can cut utility usage, improve customer turnover and boost revenue. We understand how to help you optimize your store for maximum revenue and profits.

COMMERCIAL LAUNDRIES

With a variety of equipment lines and a complete reconditioning department, we have the ability to provide your business with cost saving alternatives. Veterinary clinics, boarding kennels, restaurants, janitorial cleaning companies, dairy farms, health clubs, correctional and security facilities, refineries, salon and spas, car washes, vocational and school sports, professional sports teams, all have used us in solving their laundry needs.

HEALTHCARE FACILITIES

Our Continental Girbau high-performance open-pocket washer-extractors are engineered to serve healthcare laundries by properly cleaning a variety of items quickly and efficiently. Our washing systems offer unrivaled programmability and total control over every phase of the wash process. Utilizing high G-force extraction, our washers remove more water from every load which improves productivity, and reduces utility usage. Continental Girbau High-Performance Drying Tumblers deliver a quick efficient dry, flexible programmability and unrivaled durability.

HOSPITALITY FACILITIES

Hospitality laundries crave efficient, productive and simple-to-operate equipment and ironing systems. Continental Girbau and Girbau Industrial offer laundry systems perfectly suited to the hospitality industry, including open-pocket washers up to 255-pound capacities, drying tumblers, feeders, ironers and folders. Our products deliver a superior clean and finish for an unrivaled guest experience. Select drying tumblers with Linen Life Extension for automated moisture sensing technology engineered for linen preservation and longevity.

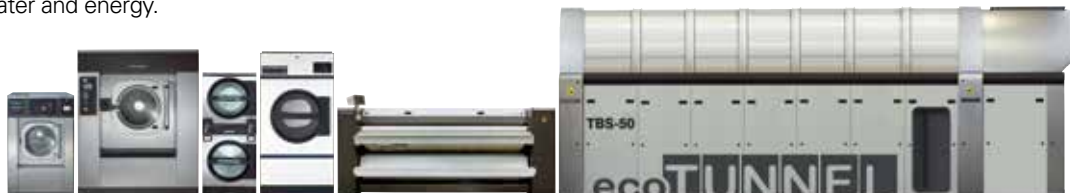

FIRE DEPARTMENTS

We understand that firefighters depend on their gear to protect them and those they serve. We take pride in providing laundering solutions to ensure gear is dependable and properly cleaned. With on-site custom programming available, fire departments can feel secure knowing their firefighters are properly protected because our washers and dryers clean and dry gear according to manufacturers' recommendations and NFPA 1851 guidelines.

GIRBAU INDUSTRIAL

We offer a wide selection of industrial equipment. Girbau Industrial provides products including large-capacity washer-extractors and drying tumblers, high-volume flatwork ironers, tunnel washing systems and related system machinery, including feeders, folders and conveyor systems.

Among the most flexible laundering solutions available, Girbau Industrial's Continuous Batch Washing System delivers unrivaled productivity, energy-efficiency, programmability and results. Configurable to meet the laundering and volume needs of medium- to large-volume laundry operations, the Continuous Batch Washing System—processes up to 3,000 pounds of laundry per hour using less labor, water and energy.
